Operators Anti Blister Socks by Armaskin, Khaki Green, Long Version

Say goodbye to blisters by wearing the secret weapon used by Operators. These anti blister socks will extend your reach when trekking by a factor 10 if your feet are prone to blisters.

The secret to the ArmaSkin break-through in Anti-Blister performance is the Si Fusion fabric that provides a slightly sticky Silicon layer next to the skin.

This fabric was designed and created by ArmaSkin after years of research and testing. ArmaSkin prevent the conditions that contribute to blisters; friction on the skin, skin weakening moisture, destructive heat and shear forces between skin layers.

The Khaki Green Operators Version had been co-developed by Operators Skincare and Armaskin in Australia for the benefit of Operators beloved feet.

They come in four sizes: Small, Medium, Large and Extra Large.

Find your size in the sizing chart below:

ArmaSkin size	Shoe Size
