OCC Operators “Office Barista” Bean-to-Cup Coffee Machine

Operators Office Barista fully automatic coffee machine designed by Italian Design Studio Segnoinverso, is small in size but big in flavor. With its innovative fresh brewing technology, this stylish compact machine delivers a range of high quality, rich tasting coffee that easily rivals traditional bar machines you would find in many coffee shops. Operators Office Barista's compact size and elegant looks compliments a variety of environments such as offices, meeting rooms, schools and training facilities.

It comes standard with a 2 liter water tank but has the options of a large 8 liter water tank and/or link for tap water supply/external 25 liter water container to make it truly mobile.

For safe transportation around the world in a 4x4, truck, helicopter or aircraft, the complete Operators Home Barista coffee system can be delivered with a customized flight case.

The Operators Office Barista has a wide range of beverages at your choice. From hot beverages with or without milk, to those with or without milk foam – espresso, regular coffee; cappuccino, caffè crèma, espresso macchiato or caffè latte – all these just at your fingertips.

Operators Office Barista Key Features:

- The pioneering brewing system can meet your need for both non-pressurized regular coffee and pressurized espresso.
- The innovative grinder with ceramic flat-type blades accurately grind the coffee beans into unified-size powder, bringing out the unique flavor of the coffee.
- The 7” touch panel is easy to use, direct and efficient, by which customized DIY coffee is just at your fingertips.
- Beverage variety of more than 20 coffee drinks
- The combination of enlarged bean hopper, water tank and grounds container can easily cope with peak hour demand.
- Different ways of water supply and self-clean mechanism can deal with any occasions.
- The capacity is suitable for up to 25 coffee lovers

Operators Office Barista fully automatic coffee machine designed by Segnoinverso Srl is winner of A Design Award & Competition the world's largest design competition in the category: Home Appliances Design Category, 2017 - 2018.
